

Invicta Social Media Policy

High-profile guests

If you take photographs or videos of a notable guest or public figure interacting with Invicta at an event, please check with a member of the Presidium (ideally the Social Media Manager) before posting them on your personal social media accounts.

Where appropriate, Invicta may wish to publish these images first through the club's official channels.

Sharing club activities

We love seeing members share photos and videos from training, tournaments and club events.

When posting about Invicta, we encourage you to:

- tag Invicta where possible;
- tag the event organiser and relevant governing bodies where appropriate;
- credit the photographer if known;
- represent the club respectfully,
- take extra care when posting images or videos that include anyone under the age of 18. Where possible, avoid identifying them by name, ensure the content is appropriate, and respect any requests from the individual or their parent/guardian not to share images.

If you're posting on a platform where Invicta doesn't have an official presence, please consider tagging the event organiser and the relevant governing body to help promote the sport.
